

International Conference on

Mathematical Physics of Disordered Systems

May 13 - 17, 2013 at FernUniversität in Hagen, Germany

The conference topics include:

- **Spectral theory of random operators**
- **Anderson localization and delocalization**
- **Random matrix theory**
- **Spin glasses**
- **Disordered systems of statistical physics**

Organized by:

- **Werner Kirsch, FernUniversität in Hagen**
- **Boris Khoruzhenko, University of London**
- **Peter Müller, Ludwig-Maximilians-Universität München**

The Wednesday sessions of the conference are dedicated to Prof. Dr. Leonid Pastur's 75th birthday.
