ONE-MANIFESTO FOR AGILE PROJECT MANAGEMENT

KA203 – Strategic Partnerships for higher education

LEAD PARTNER: FernUniversität in Hagen

ONE IS

ONE'S WORK IS CHARACTERISED BY

- virtual collaboration and communication
- trans-national and multicultural approach
- stakeholder active participation and engagement

ONE'S WORK APPROACH IS

- need-based and value-oriented
- cooperative and participative
- flexible and adaptive
- proactive and responsive
- incremental and iterative

ONE'S 10 PRINCIPLES FOR AGILE PROJECT MANAGEMENT

1. Our priority is to provide our target groups with valuable outputs to carry out multi-national projects successfully with only ONE transnational partner meeting.
2. We use agile methods for the steering of the project and the development of our outputs.
3. We facilitate involvement and participation of our project partners and target groups at every stage of the project.
4. We divide our project into development cycles consisting of design, implementation, testing and deployment stages to allow incremental progress and iterative improvement.
5. We meet changing requirements with agile processes to ensure viability and sustainability of the project.
6. We continuously work together in self-organizing teams throughout the project to enable flexible, creative collaboration.
7. We provide support to each other and trust our team members to reach project targets and milestones.
8. As interaction and communication is key for us to carry out the project successfully, we use efficient and effective methods and tools for virtual collaboration/communication.
9. The team reflects at regular intervals about its effectiveness and adjusts/adapts its behaviour accordingly.
10. We ensure our progress measurement primary through continuous status reviews along our defined project management processes, strategies and guidelines.

ONE'S AGILE PROJECT MANAGEMENT FRAMEWORK

ONE-MANIFESTO FOR AGILE PROJECT MANAGEMENT

Project Management Guide	Work Plan
Dissemination Strategy	Guidelines for Realization of Multiplier Events
Quality Management and Impact Measurement Strategy	Sustainability & Exploitation Strategy
