

## 3<sup>rd</sup> Structured Retail Products and Derivatives Conference

Campus Hagen, Germany

Fri–Sat, May 29–30, 2026

The conference aims to bring together researchers on options and derivatives from around the world.

We cordially invite the academic community to submit their papers. There will be a special track on structured retail products. For this track, we also encourage the submission of work in progress, with an extended abstract of approximately 300–800 words. Topics for this track may include, but are not limited to:

behavioral aspects, hedging strategies, market microstructure, pricing policies,  
product innovations, product valuation, regulatory issues.

Please submit your paper or abstract in PDF format via ConfTool:

<https://www.conftool.pro/derivatives2026/>.

The submission deadline is **January 31, 2026**.

Author notification will be given until the end of February 2026.

We are pleased to announce that Prof. **Claire Célérier**, Rotman School of Management at the University of Toronto, has agreed to give a keynote address.

The **Journal of Futures Markets** will dedicate a special issue to the conference.

For further information regarding the conference venue, travel, accommodation, etc. please visit the conference website: [www.fernuni-hagen.de/derivatives-conference](http://www.fernuni-hagen.de/derivatives-conference).

We are looking forward to welcoming you to Hagen!

Rainer Baule and the organizing committee
