

FernUniversität in Hagen

The FernUniversität in Hagen is the only state-maintained distance teaching university in the German-speaking countries and regions. They benefit from our modern distance education system which combines pedagogically well prepared study units with individual support, net-based cooperation in seminars and working groups, online communication offers and face-to-face sessions (Blended Learning).

Contact and contact persons for the students are to be found on the main campus at Hagen as well as at the around 30 study centres in Germany, Austria and Central and Eastern Europe.

Since we offer a real alternative to on-campus studies with high-quality final degrees (Bachelor, Master and Doctorate), we particularly also stand for the trend towards lifelong learning. That is why about 76,000 students have chosen to study with us.
