

CfA - 2026 EDELNet+ PhD Conference & Training Programme in Córdoba (ES)

The partner universities of the EDELNet+ PhD Training Programme (see IVAC-Training at <http://graduateschool.edelnet.eu>) are inviting applications to its 2026 PhD Conference that will take place in **Córdoba, Spain, from 9 to 13 November 2026**.

The number of participants is limited to 8 PhD students per institution. Successful applicants are expected to be registered as PhD students at one of the Partner Universities and have a good command of English.

Your institution may offer travel scholarships under the Erasmus+ Short-Term Blended Mobility or similar schemes. For further information, please contact your local EDELNet+ coordinator. Participants are expected to make their own travel and accommodation arrangements in advance.

The conference programme includes an **online phase, starting on August 31 2026**, during which PhD researchers will be invited to exchange information about their projects with the organization and participate in short online preparatory activities. The core of the **5-day-long face-to-face part of the programme from 9 to 13 November** focuses on the individual presentation of each participant's research. In these sessions PhD students will have the opportunity to receive constructive feedback from the discussants chairing their panels and from an audience of junior and senior researchers from several European jurisdictions.

The face-to-face part of the programme also includes a variety of short workshops on topics useful for PhD students to further develop their research and disseminate the results of their work.

Applications will be accepted on a rolling basis until 15 June 2026. Please send your application to Davide Rizzuti (davide.rizzuti@fernuni-hagen.de) and Bryson Kelpé (bryson.kelpe@fernuni-hagen.de). For further information, please contact the local programme coordinator, Dr. Juan Garcia Blesa (juan.garciablesa@fernuni-hagen.de)
